

# Space-Saving Electric Water Heater — Kitchen and Under-Sink Installations

Compact Dimensions Fit Standard Kitchen Cabinets

## Product Overview

Target Application: kitchen installations, under-sink setups, utility rooms  
Key Problem Solved: limited space under kitchen counters for water heating  
Unique Advantage: small footprint fits where traditional heaters cannot

## Technical Specifications

Parameter	AT30-R20VJ	AT50-R20VJ	AT80-R20VJ	AT100-R20VJ
Rated Voltage	220V	220V	220V	220V
Rated Frequency	50Hz	50Hz	50Hz	50Hz
Rated Power	2500W	2500W	2500W	2500W
Rated Pressure	0.7MPa	0.7MPa	0.7MPa	0.7MPa
Capacity	30L	50L	80L	100L
Dimensions	340x340x515mm	340x340x740mm	410x410x790mm	410x410x945mm
Net Weight	11kg	15kg	20kg	22kg

## Key Selling Points

### ■ Compact Design

Smallest 30L model fits in spaces as narrow as 340mm — perfect for under-sink installation.

### ■ Kitchen-Optimized

Designed specifically for kitchen hot water needs with quick recovery times.

### ■ Flexible Mounting

Can be wall-mounted or floor-standing depending on available space.

### ■ Durable Construction

Corrosion-resistant tank suitable for varying water qualities.

■ **Easy Maintenance**

Replaceable heating element and accessible anode rod for extended service life.

**OEM / ODM Customization Services**

Kitchen-specific customization available including different power ratings and connection configurations. White goods styling and retail packaging options.

**Factory & Quality Assurance**

Certified manufacturer serving major appliance brands. Our kitchen water heaters meet all international safety and efficiency standards.

**Ready to Source?**

**Request a quotation today — We respond to all B2B inquiries within 24 hours.**
